FIRST AID / CPR / AED TRAINING

Due to the overwhelming requests from our clients, The Hilgeman Group is proud to announce the introduction of our American Red Cross-authorized First Aid/CPR/AED certification training program.

Introducing Amy McGarrh, BSN, RN

Amy comes to The Hilgeman Group with almost two decades of advanced cardiovascular and trauma nursing experience. In addition to her medical background, Amy has also been a First Aid, CPR, and AED instructor for several large organizations across the United States including manufacturers, contractors, colleges, and healthcare facilities.

Compliant with The New NFPA 70E (2015) Training Requirements for Emergency Response Personnel

The recently released 2015 version of NFPA 70E® - Standard for Electrical Safety in The Workplace requires all onsite emergency responders to have First Aid and CPR training on an annual basis. AED training is also required if an AED is part of your emergency response program. Our program will ensure your compliance with this new training standard. Contact us today!
